Why Now?

Market timing is perfect

1. **Neobank explosion** — 500+ digital banks globally need investment products
2. **Regulatory tailwind** — FINRA/SEC modernizing rules for digital investing
3. **Behavioral shift** — Gen Z & Millennials prefer automatic, app-based investing
4. **Acorns IPO** — Validated the round-up model at \$2.2B valuation

Technology Moat

- **15 microservices** in Go — independently scalable, deployable
- **Apache Kafka** — real-time event streaming, exactly-once semantics
- **PostgreSQL + Redis** — reliable persistence + sub-millisecond caching
- **Kong API Gateway** — enterprise-grade rate limiting, auth, routing
- **Prometheus + Grafana + Loki + Tempo** — full observability stack
